Friday	Non-Violent Resistance (NVR) – FSS	Parents/carers	9.30-11.30am	Padnell Infants School	23/9-2/12 (Term Time only)

<p>Adverse Childhood Experiences (ACE's) ACE's is for parents who are presenting with trauma related experiences due to events that have taken place in their childhood and/or adulthood. These experiences are having a negative impact on their ability to move forward and make positive, sustainable changes to their lives. As a result, their parenting, mental health, emotional wellbeing and ability to manage from day to day is being restricted.</p> <p>Young Persons Adverse Childhood Experiences This is also available for children 12 years and up.</p>	<p>Family links Nurture Programme This is a programme to develop emotional and mental well-being which is crucial for effective relationships and family life. The course recognises that in order to fulfil our potential, sustain close relationships and enjoy parenting our children we need to be emotionally healthy. The aim is to help parents understand their emotions in order to manage feelings and behaviour.</p>	<p>HENRY - Health, Exercise and Nutrition 8-week course for parents with children under-eleven: The course is fun and informal, exploring together what makes a healthy family lifestyle and giving parents the tools and skills to give their child a healthy start and to deal with some of the challenges along the way. It offers practical support for parents and carers to help develop their confidence, boost their self-esteem and build on their strengths</p>
<p>Resources and tools for supporting young people's mental health Great resources and tools for supporting young people's mental health and resources and info to give to parents....coping with self-harm, depression, anxiety etc... www.cwmt.org.uk/schools-families-resources</p>	<p>SOS SOS sessions are bookable appointments to meet with a Family Support Worker to discuss a single issue, these sessions do not take place in the home, but families are invited to attend the centre or local venue. If it unfolds that the needs of the family are more complex, you will be contacted again to advise an Early Help Assessment, so a multi-agency approach can be taken with the family.</p> <p>SOS appointments available all term on referral</p>	<p>Non-Violent Resistance (NVR) If you are experiencing child to parent violence, you don't have to face it alone. We have supported hundreds of parents, carers and children through our workshops. In 78% of cases, there is a reduction in violent and aggressive incidences as well as improved life chances for children, reduced stress levels and improved relationships at home. We support parents with children aged 5 to 18 years.</p>
<p>This website has some great guided meditation that will help with anxiety http://franticworld.com/resources/</p> <p>For teenagers and supporting them https://stem4.org.uk/</p> <p>The distrACT app gives you easy, quick and discreet access to information and advice about selfharm and suicidal thoughts. Find in your APP store.</p>	<p>Talking Teens The Talking Teens 4-week programme enables parents to build on pre-existing parenting skills and discover new ones. The sessions will help parents understand the impact they have on their teenagers and the influence of adolescent brain development on behaviour. Parents will explore their own feelings, as well as their teenagers, and will develop approaches to –promote life skills. Parents will also consider conflict and positive approaches to boundary setting and problem solving.</p>	<p>Tots Talking The programme is for parents of two-year olds at risk of delayed language. It is aimed towards parents/caregivers of two-year olds who are not using contingent language with their children (who may not say much, who may not respond to their child's interactions). These parents may be receiving two-year old funding, have older children with SLCN, be first time parents, have mental health issues, be receiving parenting support from other agencies, be concerned about their child's language development, live in an area of social disadvantage. It is not aimed at parents of children already identified as having SLCN or SEND. Children may have identified fluctuating hearing loss, be premature, be late talkers but would not have identified Special Needs.</p>
	<p>In times of crisis – all of the following are here to help you</p> <p>Contact the Safehaven https://www.easthantsmind.org/crisis-services/adults-safe-haven/ 0300 303 1560; 1800-2200 365 days</p> <p>Call 111 There is a mental health practitioner to help you, 24/7</p> <p>SHOUT Text Line Text SHOUT to 85258 – available 24/7</p> <p>Visit 'Staying Safe' https://stayingsafe.net/ by people who have got through similar experiences.
